Corel WordPerfect Suite 7 OEM 7.0 (IT)
https://vetusware.com/download/Corel%20WordPerfect%20Suite%207%20OEM%207.0%20IT/?id=16462
7z file containing the ISO of the Corel WordPerfect Suite 7 OEM Italian CD-ROM that I got with my first PC. At the time, I found this office suite more visually pleasing than Microsoft Office 95, but maybe it was only because I got used to this, as it was my first office suite ever. I did only a brief experiment with this under Windows 10, the installation seems to work only if the ISO is mounted as a virtual CD-ROM, it didn't work if extracted in a folder. Some software doesn't seem to work with Win10, so it's better using a virtual (or real) machine with Win9x/NT/ME (probably will work with Win2000/XP too).
