EISA Configuration utility 1.1

<https://vetusware.com/download/EISA%20Configuration%20utility%201.1/?id=18211>

EISA motherboard configuration utility. Unknown board manufacture(s) supported.

QRAM 1.00

<https://vetusware.com/download/QRAM%201.00/?id=18212>

Quarterdeck QRAM 1.00 DOS Memory Manager January 11, 1990 Serial: 208-D1-9352 Serial: 216-01-6789 Serial: 000-D1-0009 "QRAM is both a high memory (640-1024K) manager and an extended memory manager (compatible with the XMS extended memory specification). Its purpose is to give you ways to load drivers, such as networks, TSRs, DOS resources, and even parts of programs in memory addresses above 640K-leaving more memory below 640K for your DOS program. QRAM's ability to do this does depend upon your PC memory and processor hardware." Archive contents: 360k & 720k disk images All files in ZIP format Manual in PDF Text description from Box Back Panel Color article on QRAM from PC Mag - April 1990 AppleSeed 2024
