Recently I've met very interesting person - sv3ora from Greece.
He is computer and telecommunications engineer with broad interests.
You can find his researches and developments on the site:
http://www.qrp.gr/

sv3ora has assembled his own compilation of DOS software - X-DOS,
based on MS-DOS 6.22, which may be useful for everybody.

You can download the collection from page
http://vetusware.com/download/X-DOS%2010/?id=11973
