HyperStudio 4.5 4.5
https://vetusware.com/download/HyperStudio%204.5%204.5/?id=16694
A spinoff of HyperCard, this program is used for creating interactive multimedia
"stacks". This is the last revision of the 4.x series. Works for certain in Windows
95/NT4 up to XP and maybe later versions, as well as Mac OS 8.5 through 9.2. Registration code
is HST629ZHS439272
