JASC Paint Shop Pro 4.12 December 21, 1996 Win95/NT4   Paintshop Pro 4.12 is a 32bit
program, however the installer is a 16bit. FULL retail version, no key is required. Seems to work
OK even in Win10, x64 (see included screenshot).   If your system cannot run the 16bit installer,
Just drag the files from the \EXEC directory to a place on your local hard drive and click on
PSP.EXE to use.   AppleSeed 2021
