Jesus Christ! Bless GOD, Jesus Christ, Mary, and The Holy Spirit# Then Bless my real mom
Huong Thi Thuyen Vu. Honours to my real mom and my real dad Nguyen Binh Thuy.

Congratulations to my real two sisters Nguyen Khoa Thuyen and Nguyen Khoa Thi.

Content: Thank you Jesus Christ.

Well I've worked hard to produce this in all assembly. It is a working one. Just the basics. It is a little slow.

It's nothing big. I only changed the text at the top. My program can easily be changed to print the text you want so it is flexible like my dad wants. So it is like on demand softwares hehe Just make sure you don't hex edit the wrong byte or else the program crashes. Cheers!

Jesus Christ! Bless GOD, Jesus Christ, Mary, and The Holy Spirit# Then bless my real mom Huong Thi Thuyen Vu. Honours to my real mom and my real dad Nguyen Binh Thuy. Congratulations to my real two sisters Nguyen Khoa Thuyen and Nguyen Khoa Thi. Hello to a beauty of a girl Ho Thi Nga.

Warning: Don't run this on a real machine unless you are ready to sit maybe an hour for it to complete.

Content: Thank you Jesus Christ.

Here is my exe for my source code. It is originally written for DOSBox 0.74 so no guarantees it would work for MS-DOS 6.22.

However I did tested it on VirtualBox with MS-DOS 6.22 so real machine might work too.

The faster the processor speed the faster the printing effects.

Thank you GOD 0 A.D. for the source code during my moments of inspiration.

I had to work from scratch street level slang to get it to work.

AND it is working so far... thanks to my The LORD of ALL hosts!!!

JESUS!

When you press the Q key it moves the screen down relatively fast for MS-DOS. Once again it is all in Borland Turbo Assembler 4.1. Thank you Jesus Christ.

Credits all goes to my two loving parents for sending me through programming education.

Obviously, GOD made my two loving parents and all our family line all the way back to the first people on earth. So GOD 0 A.D. must be first at all times!

My real mom: Huong Thi Thuyen Vu
My real dad: Nguyen Binh Thuy
My real sis: Nguyen Khoa Thuyen
My real sis: Nguyen Khoa Thi
Myself: Nguyen Khoa Tien

Jesus Christ! Bless GOD, Jesus Christ, Mary, and The Holy Spirit# Then bless my real mom Huong Thi Thuyen Vu. Honours to my real mom and my real dad Nguyen Binh Thuy. Congratulations to my real two sisters Nguyen Khoa Thuyen and Nguyen Khoa Thi for graduating.

My real mom keeps telling me to keep going and I personally noticed an improvement in my software progress. Thanks GOD for my real mom.

My real dad tells me to at least be a programmer so good that I could support my own family.
Thanks GOD for my real dad.

My real sister tells me worry about the family more than the things. Thanks GOD for my two real sisters.

In this program my software does a special affect for each section. After each section just press a key and it goes to the next special affect. hehe

Thank you Jesus Christ for coming down over 2000 years ago to save me!!!!

I Nguyen Khoa Tien confess that I have been given one of my earliest toy a computer at 9 years old or such time. At that time I learn to program BASIC. Specifically Commodore 64 BASIC. I do not remember but I do vaguely recall a machine language programming book for the Commodore 64 computer. So I have had an early advantage.

I Nguyen Khoa Tien have had the chance to meet many wonderful people along the way. GOD and my immediate family is a given! Unfortunately space does not allow me to list everyone so I just lump everyone together into 'AND SO ON'. It doesn't mean you are not important. It just means you are equally important. After all, being someone who believes in Jesus Christ from 0 A.D. means that I must try to love everyone the best way I know. Without further adue like someone once said... Thank you Jesus Christ.

Jesus Christ! Bless GOD, Jesus Christ, Mary, and The Holy Spirit# Then bless my real mom Huong Thi Thuyen Vu. Honours to my real mom Huong Thi Thuyen Vu and my real dad Nguyen Binh Thuy. Congratulations to my real two sisters Nguyen Khoa Thuyen and Nguyen Khoa Thi.

In this one there is a listing of credits. Many of you are in the programming scene in some way. I don't know everyone but the few that I do know you know who you are.
